Nam Tran Hoang

FULLSTACK DEVELOPER

(+84) 354-402-072 | hggnomm.dev@gmail.com | hggnomm.space | Linkedin | Github

Full Stack Developer with 3 years of experience building web applications. Grounded in core engineering principles and design patterns, making me highly flexible across different programming languages and tech stacks. Young, eager to learn, and ready to tackle complex challenges with cross-functional and international teams.

WORK EXPERIENCE

Full Stack Developer — 1/2026 – 7/2026
IPELLIO — **Da Nang, Vietnam**

- Developed a data-intensive legal/IP platform using **PHP (Laravel)** backend and **ReactJS/Next.js** frontend
- Built module, reusable UI components from Figma using **ReactJS, Next.js, and Tailwind CSS**, consuming internal REST endpoints with caching and lazy loading.
- Engineered modular backend systems using **Repository & Service Layer patterns** within MVC to isolate business logic, enforce loose coupling, and easy maintenance.
- Communicated directly with **Australian clients** and cross-functional teams in an **English-speaking environment** to get requirements.
- Maintained deployment workflows via **CI/CD pipelines with Docker and Git** in an **Agile/Scrum** team.
- Tech Stack: Cursor, Claude, Next.js, React, Laravel, PostgreSQL, Docker, AWS, Tailwind CSS, Ant Design.

Front End Developer — 1/2025 – 12/2025
SISU Network — **Remote**

- Implemented responsive UI and reusable interaction patterns using **React, TypeScript, Tailwind CSS, and Node.js**.
- Designed and maintained a frontend architecture with reusable React components shared across desktop and web applications.
- Collaborated with cross-functional teams to investigate technical issues, refine requirements, and deliver production features.
- Tech Stack: Cursor, Claude, Next.js, React, Electron, TypeScript, Tailwind CSS, Node.js.

Full Stack Developer — 6/2023 – 12/2024
FPT Software — **Da Nang, Vietnam**

- Developed a **Knowledge Base System** with AI-powered search to improve document and increase internal work efficiency by up to **70%** and reducing operational costs by **35%**.
- Contributed to an **Applicant Tracking System** handling candidate communication, career pages, and hundreds of monthly job postings.
- Maintained deployment workflows via **CI/CD pipelines with Docker and Git** in an **Agile/Scrum** team.
- Tech Stack: ASP.NET Core, TypeScript, React, Redux, Ant Design, MySQL, AWS, Azure, Docker, IIS.

Full Stack Developer Intern — 2/2023 – 5/2023
FPT Software — **Da Nang, Vietnam**

- Assisted in developing the Applicant Tracking System by contributing to UI implementation and improving overall usability.
- Researched and implemented a basic CI/CD pipeline for a dummy RESTful API project to better understand deployment workflows and system architecture.
- Collaborated with cross-functional teams and provided support to ensure smooth and timely project delivery.
- Tech Stack: ASP.NET Core, TypeScript, React, Redux, Less, MySQL, Azure DevOps, IIS.

EDUCATION

Computer Science Engineer **2021 – 2026**

Vietnam-Korea University of Information and Communication Technology **Da Nang, Vietnam**

- **GPA**: 3.0 / 4.0
- **Achievements**
  - Best Web Design (BWD 2022) – Reached the Final Round
  - Final Graduation Thesis: 8.7/10

TECHNICAL SKILLS

Languages	TypeScript | JavaScript | PHP | C# | Java | SQL
Frontend	React | Next.js | Tailwind CSS | Ant Design
Backend	Node.js | Laravel | ASP.NET | Spring Boot
Tools	Cursor | Claude | OpenAI | Gemini | Figma | Git
Cloud & DevOps:	AWS | Azure | Firebase | Docker | Linux | CICD
Languages	English
